Paradiso & Rasamayi:

a Channeled Sound Experience Prescribed by Your Soul and Guides.

Virtuoso didjeridoo artist, producer, and composer, Paradiso Turturici, is the founder and owner of the 5th Element Music publishing company and record label. Paradiso's music has been featured in movie soundtracks, nominated for multiple "best of" categories by the prestigious New Age Reporter, and consistently ranks high on satellite and radio charts. He has released several albums, including three solo CDs -- *Healing Vibes*, *Shaman's Trance*, and *Middle Path* -- which feature the didjeridoo accompanied by keyboards, percussion, vocals, the theremin, and other exotic instruments.

Based on wisdom from many ancient cultures, sound is a type of energy medicine that creates the sacred space in which people can heal physically and spiritually. The Aboriginal people are the first known culture to heal with sound by playing the didjeridoo, which has been used as a healing tool for at least 40,000 years.

A self-taught musician, Paradiso is a master player of this sacred instrument. His innate gift for playing the didjeridoo was developed by teachings from various elders and mentors.

The Art of RECEIVING Your Desires

by Rev. Janice Thomas, MA, CRS

The natural flow to life is one of allowing in all that we need as we move through our lives. Almost like flicking a switch, when we move into "lack consciousness," we cut off that flow and struggle into the world of victim, blame, and lack of resources.

As a group we will go into the place of flow as we release what blocks us from it, propelling each person further along in their journey of growth in life and at the same time opening the space for more love and ability to receive.

This afternoon session goes beyond a normal group meditation because it connects attendees to higher consciousness energies which bring wisdom and transformative energies. As well as deep inner peace connection, we may release toxic blockages in our energy fields and say good-bye to unpleasant memories and stuck emotions forever.

Paradiso From Page 1

"I believe music can heal the mind, body and spirit and liberate us. My vision is to inspire all of us to rediscover oneness with each other, our environment, and all of creation through music," says Paradiso.

Paradiso expanded his healing practice with his blessed partnership to gifted sound healer and alchemist Rasamayi, who has intuitively mastered the ancient art sonic healing with Tibetan and crystal bowls.

Acclaimed sound healer Rasamayi, has been trained in the healing art of sound in the Vedic, Shamanic and Himalayan traditions and is further in-

formed by past-life memories of the practice.

She has performed with renowned artists including Steven Halpern and Kai Eckhardt and for prestigious institutions nationwide. Her clients have reported transformative visions of the Divine Mother and current and past-life healing.

With the release of their first communal album, *3rd Eye Rising - A Journey Through Ascending Realms*, the healers combine their eternal intention, divine energies and infinite gifts on a journey through realms of the sacred sound current, providing

another vehicle for their healing work to reach millions worldwide.

"*3rd Eye Rising* is an extraordinary experience of the soul's journey inward and upward, facilitating healing and the discovery of one's true Self", describes Rasamayi. "Each song was recorded with the intention to facilitate healing and transformation on all levels through the healing power of sound", adds Paradiso.

Soul mates Paradiso and Rasamayi intend to continue to serve the wellness and evolution of their clients and listeners through their music and synthesis in sound healing.

Reiki Circle

by Judy Ferrig

The hand positions participants learn in Reiki training have many every day, helpful applications.

For example, the second hand position is good for headaches, motion sickness, relieving stress and worry, and assists in improving memory retention, productivity, and creativity. It also helps to integrate your logic-thinking left brain and your intuitive-oriented right brain to give you the best of both worlds.

Join Judy Ferrig at Spirits Child on Friday, February 17 from 5:30 – 7:00 pm and learn how to make life a bit—or a lot—easier!
